TITAN SKIN^{VR}

for META

TitanSkinVR is the perfect solution to secure and protect your VR headsets in public places. This anti theft skin prevents damage and accidental pressing of buttons. Using the TitanSkin you will be able to expose your VR headset safely with minimal supervision. With this solution the charging cable connectors are protected as well the device will be charged continuously. Use this skin to secure the VR headset. All the TitanSkin models are equipped with a mount on its topside for a lanyard or our retractable ceiling system.

The aluminum skin for the Meta Quest 2 and 3 are 2 millimeters thick and specially developed to protect all fragile elements, such as the headstrap and USB-C connector. With TitanSkinVR, you can safely expose your VR headset with minimal supervision. This model is equipped with a mount on its topside for a lanyard or our retractable ceiling system. To offer a good looking and secure product, it has a powder-coated finish and our standard color RAL 9005.

For optimal performance, use TitanSkin in combination with the retractable ceiling system and a 5 meter-long charging cable.

Specifications
